To the Traveling Public. People who ride on railroad trains need good watches. W. B. Miller, of Sacramento, keeps them, and invites all who visit that city to call at his store, No. 638 J street, and examine his stock. He makes a specialty of standard time keepers for conductors, engineers and other railroad men, and guarantees his goods and prices to be bargains. He has a large and fine stock of jewelry, diamonds, silver and plated ware, clocks, etc. ml

Notice to the Public. The citizens of Reno are hereby notified that I will, with the assistance of my family, carry on the business in the bakery known as "Lake Grange" bakery, as heretofore, and respectfully ask the patronage of all our old friends for the support of said family. Contrary reports notwithstanding, Eddie Grange will deliver bread to all customers with his well-known civility and dispatch. ml

Ecucalyptus. Ecucalyptus has of late years been found very useful for a great number of the ills flesh is heir to. Its latest application is in the shape of Slaven's California Pine and Ecucalyptus Porous Plaster, an article which is possessed of much merit, and is fast superseding the old-fashioned pitch and frankincense plaster. It is endorsed by the medical profession throughout the land. For sale by druggists. B. S. Queen, agent, Reno. ml

A Card. To all who are suffering from the errors and infirmities of youth, nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you, FREE of CHARGE. This great remedy is a divine medicine, and is sold in South America. Send a self-addressed envelope to the Rev. JOSEPH T. LEMAN, Station J, New York City.

Hub Punch. Clear, or without lead water, milk or lemonade, "tops" every punch for flavor. Directly the cork is drawn, it is ready and can be used clear, or mixed with hot or cold water to suit the taste. Sold by all Grocers, Merchants and Druggists. Trade supplied by Richards & Harrison, Agents for the Pacific Coast, San Francisco.

Smooth Complexion. An opportunity seldom offered, and never before in Reno. On and after the 15th inst., and until further notice, Mary Dunham will make cabinet photographs for \$3 per dozen and all other work in proportion. Remember the time will not be long; so call early. ml

A Few Drops of BOZODONT mixed with water, and placed in the mouth of the invalid, will refresh him. It removes what else would be dry and uncomfortable, and gives infinite pleasure and incites appetite. No nurse should neglect BOZODONT.

COAST CLIPPINGS.

Judge McNeely of San Diego is seriously ill.

A twenty-five-pound salmon was caught recently in a ditch below Phoenix, A. T.

There will be a little work done on a few of the mines in Pennsylvania District, Nevada, during the summer.

Robert, who shot Mason at Grass Valley Saturday night, has been released on \$5,000 bail pending his examination.

Charles Hecker was killed and Patrick Cull fatally injured in an accident last Tuesday near the Lower Cascades, in Oregon.

Five tons of ore shipped from the Last Chance mine of Highland to the furnace at Bullionville, Nevada, sampled \$400 per ton.

There appears to be a revival of small pox in San Francisco. On the 25th seven cases were reported, scattered all over the city.

William Taylor, who has been a resident of Pioche for over ten years, died about 3 o'clock Thursday afternoon of miners' consumption.

The name of the Postoffice at Ione, Nye county, Nev., has been changed on account of the trouble they had with mail matter going to Ione, Cal.

Two men have been arrested at Stockton on suspicion of being the highwaymen who stopped the Hill's Ferry and Santa stage Saturday night.

The past week has not been very satisfactory to stock operators in San Francisco. The market has been gradually settling, but at the same time very monotonous.

The friends of George W. Creaser in Oakland were surprised on the 24th to see him alive and well, it having been reported that he was murdered in Portland, Or., two years ago.

The Trades Assembly Anti-Chinese Convention, at San Francisco, which met on the 24th, is largely attended. Several organizations of a partisan character are excluded from representation.

A great many sheep shearers are now congregated in Bakersfield, Cal. Each company of shearers is under a captain, and is accompanied by a peddler, who furnishes the men with beer, cigarettes and fruit. The Californian sheep shearers are nothing unless a gambler. No sooner is the day's work done than gambling commences, and in an hour or two the bulk of the earnings is in the hands of either the captain or the peddler.

Sharp Retort. A humpbacked Yankee was once traveling in England for his health, and being recognized as recently from America, an English gentleman said to him rather scornfully, "What is that on your back?" "Bunker Hill," was the prompt reply. A grunt and rapid strides soon carried John out of sight.

A Pioneer Gone. William Howland, a pioneer of the Pacific coast, having arrived in California in '48, died out at Royal City on Tuesday morning, and his remains were brought to Pioche the following day and buried. The deceased died of pneumonia, having been sick but a couple of days. Howland was a native of County Wexford, Ireland, and was in the sixty-fifth year of his age.

BELL TONGUE SYRUP, AN ACCIDENTAL DISCOVERY OF A great value.

An Inestimable Benefit to Mankind.

UNCLE BEN JO'S

GREAT SOUTH AMERICAN PA ACEA.

UNCLE BEN JO was born in Boston, in 1830. Being a botanist, he effected many wonderful cures with roots and herbs. In 1814 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. This they did by laying it in a circle about the same. As a proper distance off. This herb, Uncle J., as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very disagreeable and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part tops over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle J. named it the Bell Tongue Plant. In South America this herb is only found in the extreme interior of the country, and the natives there call it "Zarr Zarr." It is a wonderful cure of kidney and liver diseases, also, dyspepsia, neuralgia and rheumatism. We have a whole library full of testimonials. Sold by OSBURN & SHOEMAKER, Reno, Nev.

THE FISH QUESTION.

The present fish law seems to be a clumsy and needless interference. There are so many opportunities for the increase of trout that it seems unnecessary to protect what few could be taken during the season. The cost of artificial hatching is so small that it would be easy to replace all that could possibly be taken at a fraction of the value of those that could be sold. The present law works a hardship all along the river, for while the people near the mouth have the privilege of fishing while the fish are plenty, the law goes into operation before they reach Reno, and none can be taken to sell. If the river was open all the year round an average of 25 or 30 men would earn good wages, as they could sell every pound at an average of 10 cents, and one man engaged in hatching would replace all they could catch and a million more.

WHEN THE SHOE PINCHES.

When a Chinese company puts on a line of steamers between Hongkong and San Francisco, says the *Report*, the force of Chinese competition will be felt in the quarters now favorable to unlimited Chinese immigration. So it goes. White men make a profit out of the Chinese till the Chinese begin to compete with them, but when they themselves are touched on the raw they begin to realize the evils of Chinese immigration. When the Chinese become numerous in the Eastern States and establish factories, stores, banks, insurance companies, transportation lines, etc., the New York and Boston bankers, merchant, manufacturers and insurance men will sing another tune to the one they piped in their recent petition against the restriction of Chinese immigration.

FREE FOREIGN PUPILS.

Under the present management foreign scholars attend the Reno public schools without paying tuition fees or taxes of any kind. Quite a number from other districts are now drawing upon the time and energies of teachers who are paid by the tax-payers of this district. It is doubtful if this would be allowed anywhere else. A fee of from three to five dollars a month is always customary in such cases, and it is no more than fair that it should be collected.

EDITORIAL NOTES.

The product of Nevada for the year 1891 shows \$12,430,667 in silver, and \$4,888,242 gold, total \$17,318,909. The product represents an average of \$44 16 gold, \$112.29 silver, and \$156.45 gold and silver for each square mile of its area. With reference to its population, even with reduced output, Nevada remains the richest of the mining States and Territories, as its annual product, if distributed equally per capita, would give \$78 51 gold, \$199 63 silver, and \$278 14 total to every man, woman and child within its borders.

The Grand Lecturer of the Good Templars of California made a gallon of whisky in the presence of a large audience, using only a few ingredients mixed with water. He should have been arrested immediately for running an illicit distillery and defrauding the government of revenue.

Six Good Indians.

CHICAGO, April 27.

A dispatch received this morning at General Sheridan's headquarters from Captain Woodruff, dated at Lordsburg to-day, confirms the news that Gen. Forsythe struck the hostile Apaches yesterday, and killed six of them. The fight occurred in the southeastern corner of Arizona, in the vicinity of old Camp Packer. The Indians were being pursued when the dispatch was sent. General Mackenzie approves the operations thus far. General Sheridan says that the length of time which will be required to restore peace and safety in that section will depend on whether or not the Apaches get over the line into Mexico where troops are not at liberty to follow them. The country is extremely rough in that section, and it is almost impossible to get at the hostiles. Gen. Sheridan fully sustains Col. Forsythe in his movements.

Press Dispatches to EVENING GAZETTE.

EASTERN.

The President and the Russian Jews. WASHINGTON, April 26.

Judge Belford, representative in Congress from Colorado, had an interview to-day with the President regarding the persecution of the Jews in Russia. The Judge showed that the atrocities practiced on Jews in Russia have taken the form of destruction of property by plunder and fire, injury to person, murderous assaults, outrages on mothers, wives and daughters, and deliberate murder. As nearly as the results of these atrocities can be ascertained and stated in figures, it appears that 20,000 have been violated, 60 men killed, 70 wounded, 20,000 rendered homeless, and about \$75,000,000 in property stolen and wrecked. Judge Belford reminded the President that intervention in such cases has been practiced by civilized nations for the past two centuries. He cited a number of cases where intervention has been practiced in late years, among them that of Russia in behalf of persecuted Christians in Turkey; intervention by Russia in behalf of Greek Christians in Turkish dominions was the avowed justification for undertaking the Crimean war; and again in 1877, intervention of Russia in behalf of Christian subjects of the Sultan was the single pretext for the Russo-Turkish war. The President said he felt deeply interested in the case of persecuted Hebrews, and was determined to do everything proper to induce Russia to extend the fullest protection to this class. He had addressed a communication to our representative at St. Petersburg directing him to invite the attention of the Czar to these repeated atrocities; to express the abhorrence felt in this country in relation to their perpetration, and entreating him to exercise his authority to prevent their recurrence. The President further said that while it was a delicate matter for this Government to interfere with matters between the Government of Russia and its subjects, yet he was determined to do all possible. In any event he was determined that American Hebrews temporarily residing in Russia should receive the care and protection of their Government.

Homes for Jewish Refugees.

CHICAGO, April 26.

A Mr. Spear, of Cincinnati, one of the three Commissioners to whom are to be assigned the United States quota of Hebrew refugees from Russia, has just returned from a prospecting tour of the Yellow Stone country. He was more than pleased and expressed himself unmistakably in favor of the bottom lands between Miles City and Glendina as a location for 5,000 of the refugees. He further said he would strongly recommend this site to his brother Commissioners, and offers to pay their expenses if, after a trip to this country, they did not agree with him. Each family is to take a small farm and will be furnished with sufficient money to put up a house and buy one year's provisions. With this start they can pay individual attention to their prospects. In this connection it may be stated that the Russian Jews, unlike their compatriots of other countries, have a large proportion who are acquainted with agriculture. Many of them are skillful artificers.

Death of a California Soldier.

NEW YORK, April 27.

Captain Eugene B. Gibbs of the regular army died yesterday of Bright's disease, aged 48 years. Captain Gibbs was a son of ex-Governor Wm. C. Gibbs of Rhode Island, and brother of Major Kane Gibbs, from whose battery the last shot of the war was fired. At the breaking out of the rebellion the deceased officer was engaged in the iron trade in San Francisco, but abandoning his business, assisted in forming the First California Volunteers. This regiment was ordered into the Indian service, and through-out five years of civil strife it was actively engaged in suppressing savage outrages in Arizona and New Mexico. The remains have been removed to Newport, R. I., where the funeral will be held.

Fatal Railroad Accident.

CARBON HILL, Ohio, April 27.

As a local freight train was going south on the Columbus, Hocking Valley & Toledo road, the trestle gave way, dropping the engine into Sand River creek. W. B. Deland, the engineer, and his son Charlie, fireman, were instantly killed by the steam, and James Hiles, head brakeman, had both legs broken. Others injured will not recover. The engine was entirely submerged in the water, and the engineer and fireman were both held under water by the wreck.

A Lively Spot.

WASHINGTON, April 27.

At the close of Belmont's cross-examination of Blaine, to-day, a most exciting and unusual scene occurred. Blaine stated that as Belmont, after being warned on Monday, had persisted in entirely misquoting his dispatches and putting upon them a construction utterly foreign, he was compelled to change his opinion of him, which had heretofore been that he was a gentleman. An exciting

colloquy ensued, which the Committee were unable to interrupt. Belmont intimated that he would deal with Blaine in private, and followed it up with the words: "I believe you are a bully and a coward." Blaine addressed the committee and, ignoring Belmont, replied: "Mr. Chairman—This young man has disgraced himself. He has been put forward by those who are behind him to insult me, but he is incapable of doing so."

Blaine, who had been standing, and speaking with a good deal of excitement, then took his seat, and Belmont jumped from his chair and said: "Of course Blaine's object is plain enough—that is to avoid the direct issue." Blaine, rising and striking the table angrily with his clenched hand: "What issue?" Belmont—"The issue which must be met." Blaine—"What issue?" Belmont, also rising and angrily striking the table: "I will not answer a single question that you ask from this time to the end of the examination. You have stated what I deem to be entirely incorrect. You have attempted to place me in a false position. In this you will not succeed. I said that quotation-marks were mistakes of the printers, and your language bears the construction I put upon it. A careful reader will agree with me, and a careless reader may be influenced by your speech. The commencement of this examination this morning relieves me of all consideration I mentioned yesterday which I intended to observe for a man who had held the office of Secretary of State. You placed yourself on a level with any other witness, and I will examine you as such."

Blaine, angrily—"What do you mean?" Belmont—"I mean this: that you have been before committees before this; that you have endeavored to threaten—Wilson interrupted—"I submit this is not in order." Blaine—"This is intolerable; the insolence of this young man is intolerable." Belmont—"You have brought it on yourself." "I have no more regard for your insolence," retorted Blaine, "than I have for that of a boy on the street."

The scene was a most remarkable one, and notwithstanding the efforts of the chairman to smooth the troubled waters and obviate the necessity for a misunderstanding, the impression prevails at adjournment of the meeting that the dispute had by no means ended. It is the subject of comment on all sides this afternoon.

A Colorado Sheriff Murdered.

LAKE CITY, Col., April 26.

This morning about two o'clock Sheriff E. Campbell, while guarding an untenanted dance house against thieves, was shot through the heart and instantly killed by two low dance-house men, named George Betts and James Browning. A lynching is apprehended to-night.

THE MURDERERS LYNCHED.

This morning at 1 o'clock 100 masked men overpowered the guard and took from jail George Betts and Jim Brown, who shot and killed Sheriff Campbell yesterday morning while attempting to arrest them. The men were taken to a bridge in the lower part of the town and hung. Both men died game—Betts asking some of the men for a chew of tobacco just before the rope was placed about his neck.

"We Did It."

WASHINGTON, April 27.

Senator Farley, of California, in discussing the Anti-Chinese bill this afternoon, gave that question a political turn. He said that the matter of anti-Chinese legislation had been taken in charge by Republicans and managed in close corporation style. He complained that Democrats from the Pacific Coast had not been consulted as to the needs of their constituents, and claimed that to Democrats belonged the credit of all that may have been achieved.

Death from Eating Pork.

KANSAS CITY, April 27.

A case of trichinosis is reported from Clyde, on the 23d instant. Adam Ballinger killed a hog, of which the entire family ate, and during the night all were seized with vomiting and all the symptoms of trichinosis. A son twelve years of age died during the night. The rest of the family are in a dying condition, except Mrs. Ballinger, who may recover. The movements of trichina in the raw pork may be observed with the naked eye.

Arrival of a British Excursion Steamer.

SAN FRANCISCO, April 27.

The British steamer Ceylon arrived here last evening, via Honolulu, on her tour of the world. She has visited India, Ceylon, Singapore, Manila, Hongkong, Japan and the Hawaiian Islands. She will visit the South American ports, Falkland, Cape De Verde, Madeira and Southampton. The Ceylon has on board about thirty excursionists. The weather throughout the voyage was very pleasant.

A Ramor.

KANSAS CITY, Mo., April 27.

It is rumored here that the Chicago & Alton passenger train has been wrecked at Grain Valley, 13 miles east, with a heavy loss of life. No particulars yet.

Agalls and Dawes Worrying Farley.

NEW YORK, April 26.

A Washington correspondent gives the following episode in to-day's debate on the Chinese bill: Farley undertook to reply but became involved in a ludicrous manner in a

discussion with Ingalls and Dawes. Dawes is understood to be in favor of the bill, but he loves a controversy, and has few equals in a running debate. Farley was laboring to establish something which was rather obtuse, when Ingalls interjected the query why the people of California gave employment to Chinese. Farley said his people were much like those of Kansas; they hired labor where they could get it the cheapest. "But," said the Senator from Kansas, "people do not go into the slums and hire leprosy and vile wretches to come to their houses and enter their kitchens as servants and members of their households."

Farley observed that the leprosy lead had been overworked. "But," queried Ingalls, "why do you hire them?" Would they remain if they could not get work at paying prices, or if you did not pay their commodities?"

Farley admitted that this was a hard question, for it was a thing which no fellow could doubt. He turned the discussion upon the Chinese in Massachusetts, and asked why they left Massachusetts.

Dawes replied that like other intelligent men they went away because they thought they could better themselves. "And," interjected Senator Ingalls, "Massachusetts did not come to Congress and ask them to pass a bill to exclude the Chinese."

STILL DISCUSSING THE BILL.

WASHINGTON, April 27.

Discussion of the Chinese bill was continued by Farley. He insisted that the 15th section should be retained, in order to make the bill effectual, and replied in detail to a member of objections urged against the proposed legislation. Farley also, in the course of his remarks, commented with severity upon the failure of Republican members of the Pacific Coast delegation to take counsel with their Democratic colleagues in preparing the bill, which had been hurried through the House of Representatives without opportunity for amendment. He announced, however, that while under these circumstances the Democrats would not be responsible for any defects in the bill, they would nevertheless furnish the votes to pass it rather than risk a failure to obtain relief for the people of the Pacific coast.

Grant's New Policy.

WASHINGTON, April 26.

A letter was received here a few days ago, by an applicant for a position, from General Grant in reply to a request for his indorsement, in which General Grant says that he has not recommended any one for office recently unless his opinion has been requested by the President or some member of his Cabinet. He had made but one exception to this rule, and that was in the case of the army appointment (Fitz-John Porter?) which, if the best interests of the service, and if justice to the service had been done, would have been made long ago. He did not intend in future to suggest or interfere in the slightest degree with appointments.

Crop Prospects.

NEW YORK, April 27.

The *Times* this morning devotes over thirty columns to telegraphic correspondence concerning the condition of crops. These dispatches cover every State and Territory in the Union except Nevada. It is shown that with few exceptions bountiful harvests are assured in all sections, and that damages by flood and frost are much less than at first supposed.

A Railroad Seized.

BROCKVILLE, Ont., April 27.

The Sheriff seized all the rolling stock and property of the Canadian Pacific railroad at this place, to satisfy a judgment for one hundred thousand dollars obtained against the company.

TELEGRAPHIC BREVITIES.

—Jay Gould and party left Laredo for Campanas, Mexico, yesterday.
—Handbills are being circulated in Russia calling upon the Jews to join the Nihilists.
—There is a serious crisis in Zulu affairs, and great care is necessary to prevent terrible bloodshed.

—The argument in the Mason case was concluded in the United States Supreme Court yesterday.
—The Anti-Monopoly Convention at Albany, N. Y., yesterday had 400 delegates. L. C. Chittenden was temporary chairman.

—Aaron Sargent, United States Minister to Berlin, will sail with his family on the Red Star Line steamer Rhynland on Saturday next.
—Pinkeye has appeared among the horses in New York. The mortality is considerable. One dealer lost \$3,000 worth in the past three months.

—Readon's Star Route case was concluded in the United States Supreme Court yesterday. Postmaster-General James and MacVeagh were present as witnesses.
WESTERN.
A Jealous Dentist Shoots His Mistress and Himself.
SAN FRANCISCO, April 27.
About 8 o'clock this morning Dr. E. N. Woodward, a dentist, entered the room of a woman known as Mollie Woodward, with whom he had been cohabiting, at 1,039 Mission

street, between Sixth and Seventh. The woman, partly dressed, was sitting on a bed. Woodward made some remark to the effect that she had been bearing his name long enough without being his wife, and drawing a revolver, fired at her. The ball struck just below the left eye, and ranging downward and sideways, lodged in the muscles of the neck on the right side. Woodward then turned the pistol on himself, the first shot inflicting a flesh wound on the right temple; the second entered his mouth, causing instant death. From what can be gathered from the statements of the woman and acquaintances, the parties have been living together as man and wife. The woman's real name is Woodward, she being the wife of a man by that name, the son of a wealthy rancher by that name in Napa county. She separated from her husband some time ago and took up with Dr. Woodward, no relative to her husband. The Doctor was jealous of her and wished her to marry him, and her refusal is considered the cause of his action. Woodward was a man of middle age, and of respectable standing in his profession. The woman is likely to recover, though the wound is very serious.

Republican State Central Committee.

SAN FRANCISCO, April 27.

The Republican State Central Committee met yesterday. There was a full attendance. The proceedings were private, but it is understood that a good feeling prevailed and that a vigorous campaign will be made. A vote of thanks to Senators and representatives in Congress was passed. The State Convention was fixed for Wednesday, August 30, at Sacramento.

THE GREAT REMEDY FOR RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, BACKACHE, GOUT, SORENESS OF CHEST, SORE THROAT, QUINSY, SWELLINGS AND SPRAINS, FROSTED FEET AND EARS, BURNS AND SCALDS, GENERAL BOOILY PAINS, TOOTH, EAR AND HEADACHE, AND ALL OTHER PAINS AND ACHES.

No Preparation on earth equals Dr. J. C. Vogel's Remedy. A safe, sure, simple and cheap External Remedy. A trial will convince the most skeptical. It is a simple, but a comparatively trifling outlay of 10 CENTS, and every one suffering with pain can have cheap and positive proof of its claims.

DIED.

SMITH—At Smith's ranch, April 27, Harry F., youngest child of A. J. and M. D. Smith, aged two months and 27 days.
 Funeral will take place to-morrow afternoon at 2 o'clock.

Personals.

Fraser, the foundry man, has gone to Bodie on business.

Louis Dean, the cattle man, came up from below this morning.

Lazard Coblenz, of the firm of Rosenwald, Coblenz & Co., Lund, went through to San Francisco last night.

Frank Rockwell, W. F. & Co.'s messenger, is back on his old run between Reno and San Francisco. For several months he has been on the route between that city and Los Angeles.

Miss Gertrude Elliott, daughter of Major L. W. Elliott, a prominent lawyer of Stockton, passed through Reno this morning en route to Boston, where she will complete her musical education at the Conservatory of Music. She was accompanied by her grandfather, Mr. Theodore G. Elliott, a California pioneer, but now a resident of Georgetown, Massachusetts.

Some Wheat.

The modest ranchers of Washoe valley may be interested to learn that Dr. Glenn of Colusa, Cal., hopes to raise a million bushels of wheat this year. He has promised his foreman a bonus of \$10,000 if that quantity of wheat is harvested on his ranch this season. From all accounts there is a prospect that the foreman will get the "stake." It is understood that Glenn would now rather raise a million bushels of wheat in one year than be Postmaster. On his ranch of say 60,000 acres this yield would be 16 2/3 bushels to the acre. When it comes to raising grain by the million bushels there is something in farming that excites the imagination.

Fine Horses.

The Elko Independent of Tuesday says: A car specially arranged for the purpose, and attached to the west-bound freight train, last evening, contained eight head of fine blooded horses, among which was a yearling half brother to the celebrated mare, Mand S. They were all handsome animals, but the yearling was a perfect beauty. The stock is destined for New Zealand, and are being shipped by John Carter of Lexington, Kentucky. The animals were bred by Ben Tracy, the well-known blooded stock raiser of that State.

Amateur Th. artist.

An amateur company of local talent, under the management of E. L. Bridges, will put "Michael Earl," or "The Maniac Lover" on the stage shortly. The company consists of some of Reno's best home talent, and when presented, will no doubt prove a success. Old residents will remember Ned, as the "Maniac Lover" years ago, when he and "Pinky" Davis carried away the laurels of the evening from a professional troupe, and give the present company a full house. The entire cast is not yet known.

The Golden Opportunity.

Every sufferer from liver complaints and constipation will doubtless avail himself of the golden opportunity presented of testing the new remedy, Syrup of Figs, free of charge. Cases of long standing, which have only been aggravated by the harsh, gripping medicines formerly used, yield promptly to the gentle yet thorough influence of Syrup of Figs. Those who have tried it praise it highly. Trial bottles free, and large bottles for sale by R. E. Queen, Reno.

Nevada Theater.

Callender's Minstrels gave a very excellent performance last evening, and were deserving of a much better house than they had. McIntosh is a whole show of himself. The troupe left last night for Grass Valley. They will very likely give Reno one night on their return East.

PROLIFIC PORKERS.

What May be Done in the way of Supplying the Home Demand.

The GAZETTE has frequently referred to Nevada's undeveloped possibilities in different directions. There is one thing that seems certain to be profitable which has hardly been noticed by the State papers. That is the excellent opportunities for raising and the steady market for pork. Los Angeles now sends large quantities to San Francisco, and so do the Sacramento and San Joaquin valleys, as well as Oregon. Nevada constantly imports live hogs from over the mountains. There are many places in Nevada where hogs could be raised more profitably than hay or grain. H. C. Emmons, at Lovelock's station, is going into the business quite extensively. He has 150 fine sows on his ranch on the edge of Humboldt Lake. They run in the tules all day, but come up to the stable to sleep. He feeds them a little alfalfa, which they eat heartily, in order to keep them tame. They are fond of alfalfa and will leave everything else to eat it. He has pens covered with tule, where he puts them up as soon as they have young, and keeps them there until the pigs are old enough to eat. He boils wheat for the young ones. There are about 185 little fellows now, all weighing about a pound and a half or two pounds apiece, and as lively as fleas. The ranch is a sight to behold when 350 or 400 squealers, young and old, come up at night. They are all black, and the whole country seems to be one mass of squirming porkers. They feed fat on a wild vine in the tule, and sell readily for 7 cents a pound on the ranch.

"Needles" Reformed.

The Bodie Free Press of Wednesday says that "Needles," the tragedian took a temperance pledge before a Justice of the Peace in Bodie last Tuesday. A fearful ironclad oath was administered to the celebrated rump-singer, who said he had carefully looked over the field, and had come to the conclusion that there was no use trying to rid the world of liquor by endeavoring to drink it up, as the distilleries could manufacture it faster than any one man, even of his immense capacity, could dispose of it. He says he is going to settle down, make some money, and be an ornament to the best society to be found. As an indication of his good faith in the matter Mr. Needles drank nothing but soda Tuesday evening. His copper-lined stomach was wonderfully surprised at the change and his throat acted strangely. "But they will soon get used to it," he observed.

A Disgusting Sight.

The notorious Mabel Gray came down from Verdi last night, and, having a few dollars, proceeded to fire up. Before many hours she became very drunk, and this morning the abandoned woman was sleeping on the sidewalk until some one dragged her into a vacant building, out of sight. She was afterward seen tumbling about the street, jeered at by a squad of boys, who in this manner, perhaps, obtain their first lessons in vice. The creature should be placed under permanent restraint, in order that her disgusting displays may not become familiar to the youth of Reno. It is possible that a germ of decency remains in this poor woman, which, if cultivated by some Christian hand, will lead to her redemption. Here is a subject for the Ladies' Christian Temperance Union to work upon.

A Stand-off.

Though a large number of immigrants arrive daily from the East, there is almost an equal number of second-class passengers coming from California. The majority of three car-loads this morning were bound for the New England States. Many were returning to their old home in disgust at their inability to obtain remunerative employment on this Coast.

The "Reno Weekly Gazette."

THE WEEKLY GAZETTE, issued to-day, contains a large amount of excellent reading, consisting of complete telegraphic report for the week; a carefully made up summary of Pacific Coast news; State and local intelligence, besides a great deal of interesting miscellaneous matter. Subscribe for it. Send it to your friends. Only \$2.50 a year, postage paid.

Favorable Rumors.

The good news is reported that the affairs of the N. & O. R. R. are being satisfactorily arranged, and the prospects for its going on are excellent. Moran, the banker, yesterday signed letters of credit, to be used as fast as each mile is built. This will build the road to the Junction, and the debts will all be paid as soon as money can be raised.

The Big Nail.

The Odd Fellows had a happy time last night. They turned out in force to enjoy themselves and entertain their friends. The music was more than good. The Reno band are gaining a reputation for their excellent work. The promoters of the party think they will come out about even.

For the Young Ladies.

Buy one of these beautiful "Madelines" and you can catch a husband sure. One of them will catch any man.

JOTTINGS.

This weather is too good.

Jerry Schooling has fresh sheep dip. Lawn Tennis suitings at I. Barnett's. The barber shops experienced a boom last night.

Honey Lake apples at \$2.50 a box at Leadbetter's.

The snow is rapidly melting from the adjacent hills.

Railroad materials are going west in considerable quantities.

The hotels of Reno have been well filled during the past week.

The Board of Commissioners for the insane meet in Carson to-day.

E. A. Allen has a "White" sewing machine, in good order, for sale. Price \$25.

Playing cards at Nasby's Bazaar. Thermometer at 7, 9, 11, 1 and 3—46, 67, 68, 69.

Third street was turned into a race course last evening, when rival nags were speeded.

Schooling has genuine Eastern cod-fish. One that he hangs up in his store looks like a young whale.

There is increasing travel to Candelaria and Bodie. An old stager says the latter "is the boss town yet."

Mrs. Carroll has sold the Deep Wells property on the Pyramid road, and will look no more chickens for the travelers.

Abrahams Brothers keep a splendid stock of boys clothing of the latest styles. Take your little fellows in and dress them up.

A Chinaman occupied a reserved seat in the theater last night. This sudden assumption of frills is doubtless a consequence of the veto.

The beautiful ladies wishing to beautify their yards will find Vick's choicest flower seeds, all varieties, at catalogue prices, at Queen's drug store.

Osburn & Shoemaker are agents for George Simmond & Co.'s "Nabob" whisky. It is a very superior brand, and for medicinal purposes it has no equal. Read Simmond & Co.'s ad.

It is frequently remarked that when two locomotives pass each other—not on the same track—the engineers look back and criticize the appearance and condition of the machines, as women cast a side glance at each other.

The Mines in Mohawk.

Reno parties hold large interests in the Valentine ledge, Plumas county, on the east side of Mohawk valley. Chamberlain has large claims there, and other men are interested in his and other claims. John Poe has spent the winter there and has run a tunnel about 110 feet, which he thinks will strike the ledge in 30 feet more. Mr. Neseman and his sons are working on their gravel claims, and are said to be taking out a thousand dollars a week. They lie on the west side of the valley. Other claims there are doing well. The gold is very coarse, and chunks worth about \$100 have been found. The parties who have the Valentine mine in hand propose to take the water out of the shaft and prospect the mine. Work will begin in a couple of weeks. Frank Emmett says the shaft is down 60 feet, and he brought in some specimens that show gold freely. They have a two stamp mill, which he proposes to start up and try to make the ledge pay for prospecting.

A Handsome Present.
The Silver State says: Colonel Hardin has purchased J. J. Mann's King's river ranch, which contains about 8,000 acres, besides an extensive cattle range, and presented it to his son, C. H. E. Hardin, who intends to become a permanent resident of this county. The ranch will be stocked with cattle this summer.

Kidneys and Skin-milk.
The discussion of the value of simple skim milk diet in Bright's diseases has been revived. The Hartford Times is one of the journals which published testimony concerning the effect of the treatment, and it says that a baker of that city who used nothing but thoroughly skimmed milk has fully recovered.

P. D. Etue, Kansas City, Mo., one of the proprietors of the Commercial Indicator, says he knows the St. Jacobs Oil to be a most valuable remedy for rheumatism. Last winter, Mr. Etue says he had this disease in the left shoulder. The pain was excessive at times, and so severe while attacks lasted as to cause a strong desire to have it speedily eradicated. After vainly resorting to several remedies for relief without success, he at last hit upon the Great German Remedy. He experienced decided and immediate relief from its use, and was entirely cured with the fourth application. Since then he has entertained a very high respect for the curative powers of the Oil. The respect is not at all lessened by his happy action in the case of his wife, who subsequently suffered with inflammatory rheumatism. She contracted the disease while visiting in Colorado. Upon arriving at home the St. Jacobs Oil was used in conjunction with prescriptions for internal administration, and materially aided in her restoration to health.
